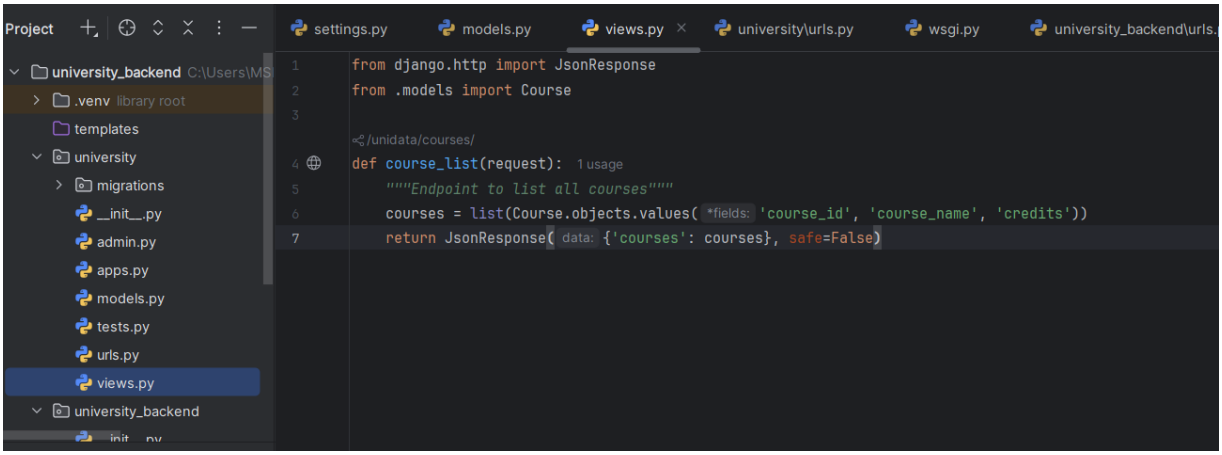
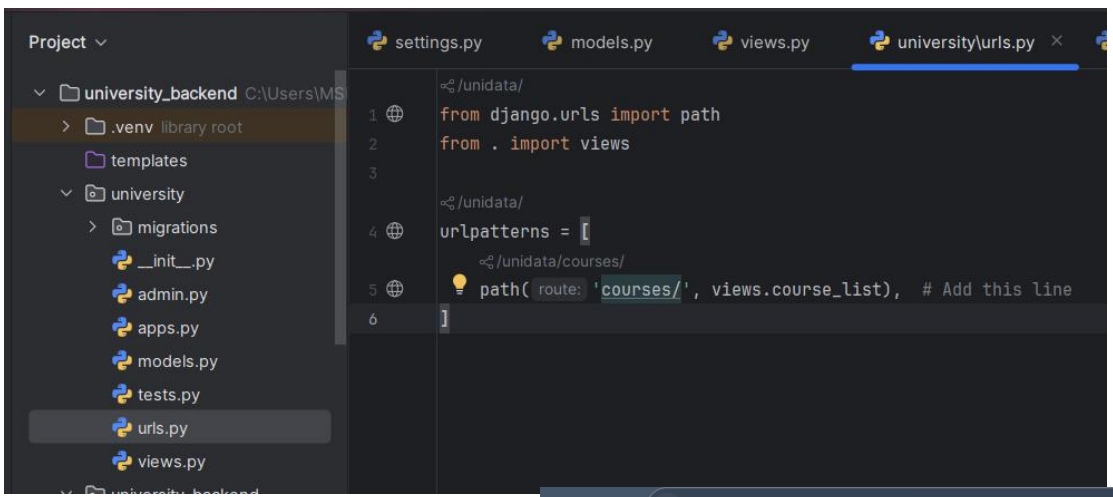
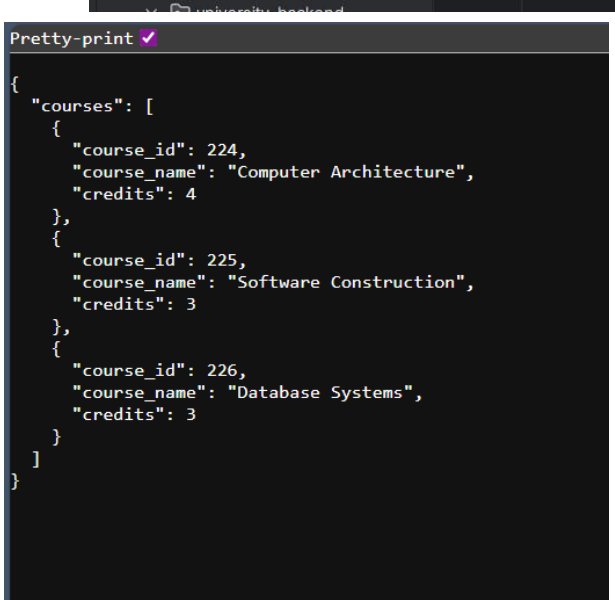
CO2 26 – DATABASE SYSTEMS LAB 07

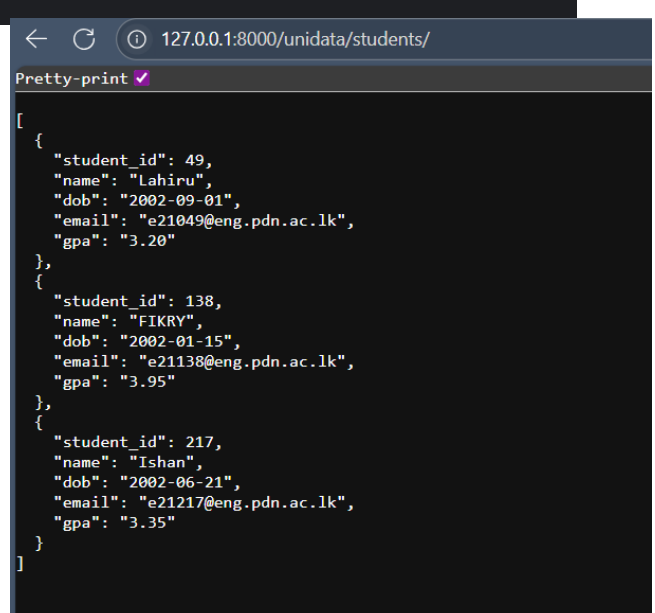
Lab Tasks

1. Now create a view to get the courses data and wire up the urls properly and get the data to be viewed from a web browser. Take screenshots.







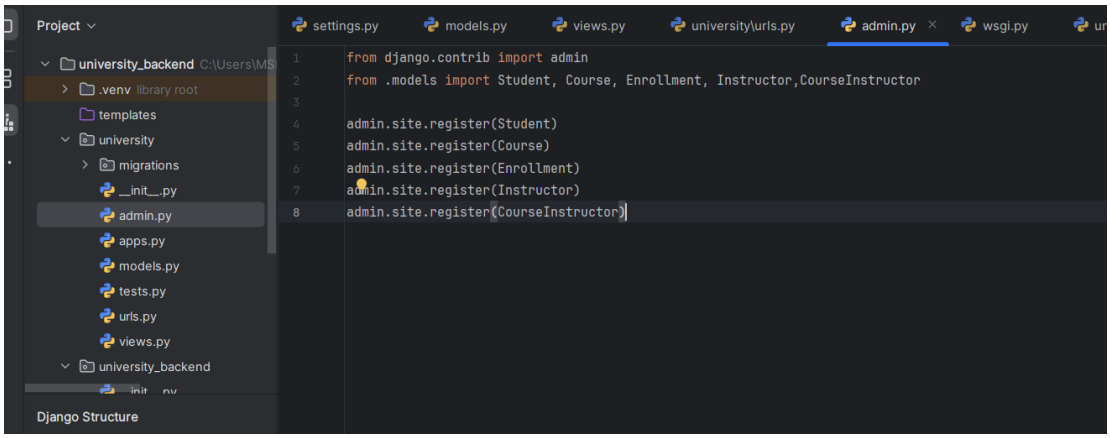


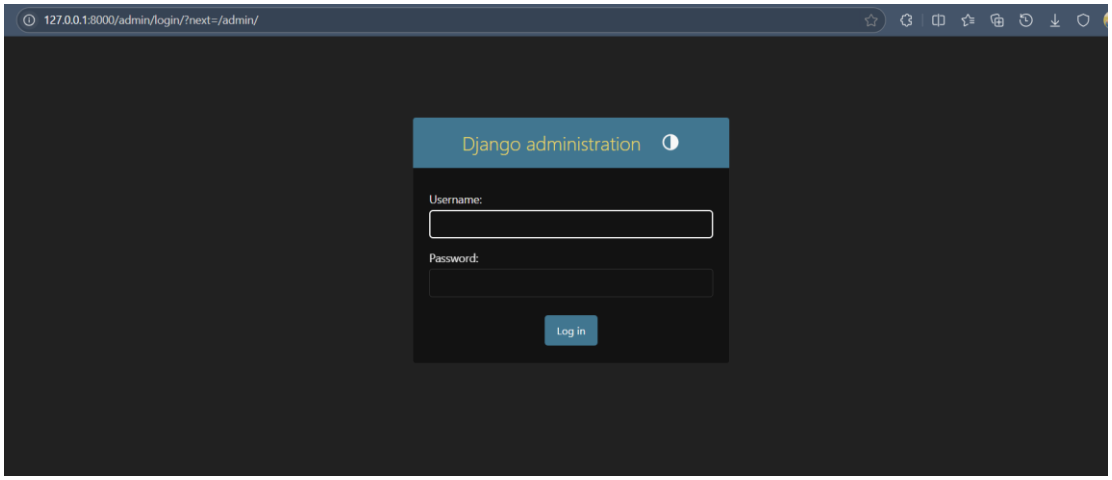
Lab Tasks

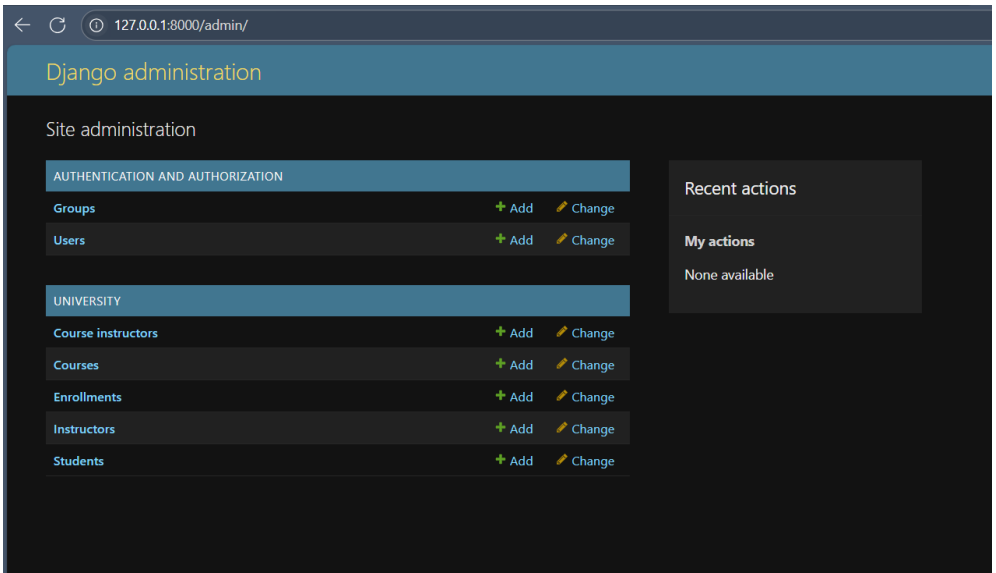
2. Add new data to students and courses tables from the admin terminal and view it from the previously created views and urls – view on browser. Take screenshots.

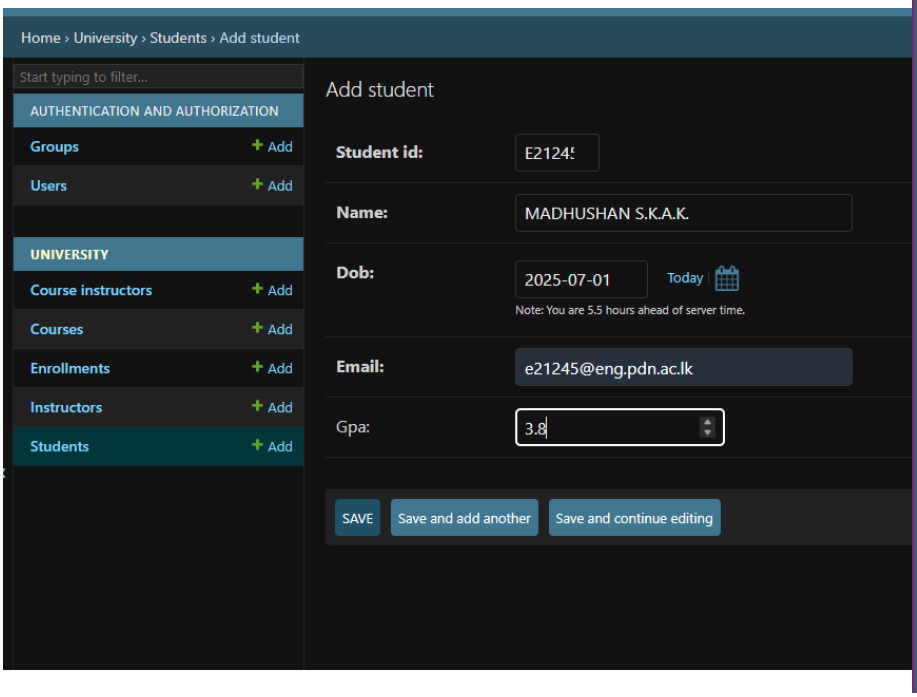
```
(.venv) PS C:\Users\MSII\PycharmProjects\university_backend> python manage.py createsuperuser

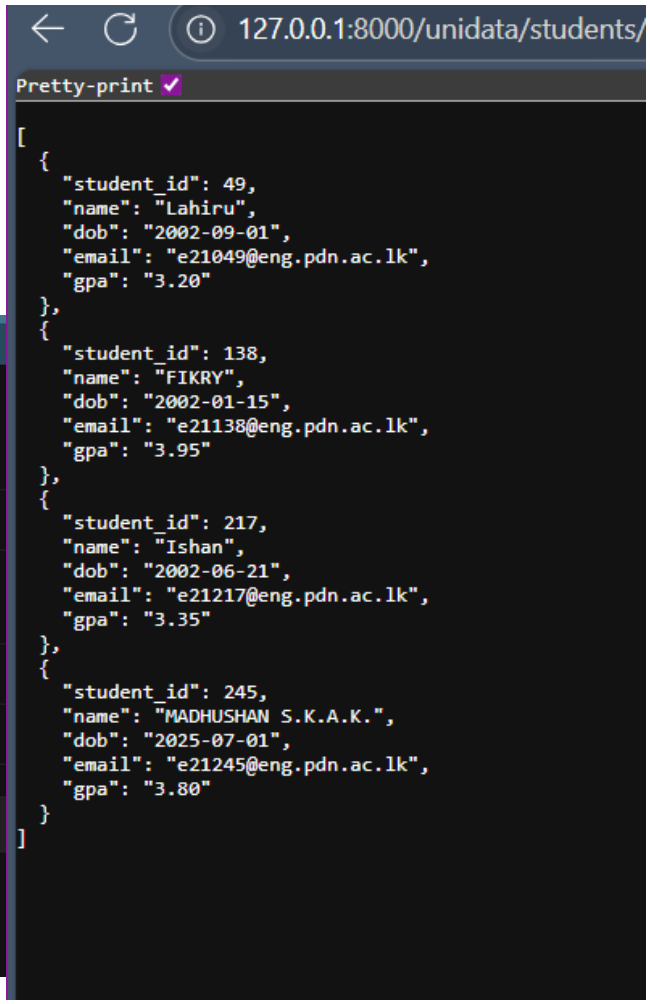
You have 1 unapplied migration(s). Your project may not work properly until you apply the migrations for app(s): university.
Run 'python manage.py migrate' to apply them.
Username (leave blank to use 'msii'): admin
Email address:
Password:
Password (again):
Superuser created successfully.
(.venv) PS C:\Users\MSII\PycharmProjects\university_backend> \
```

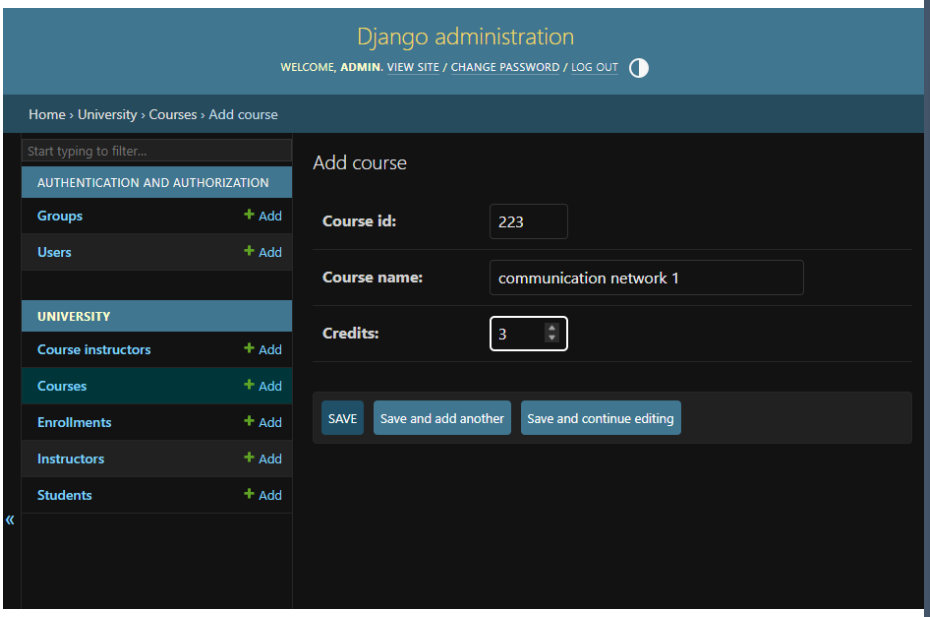


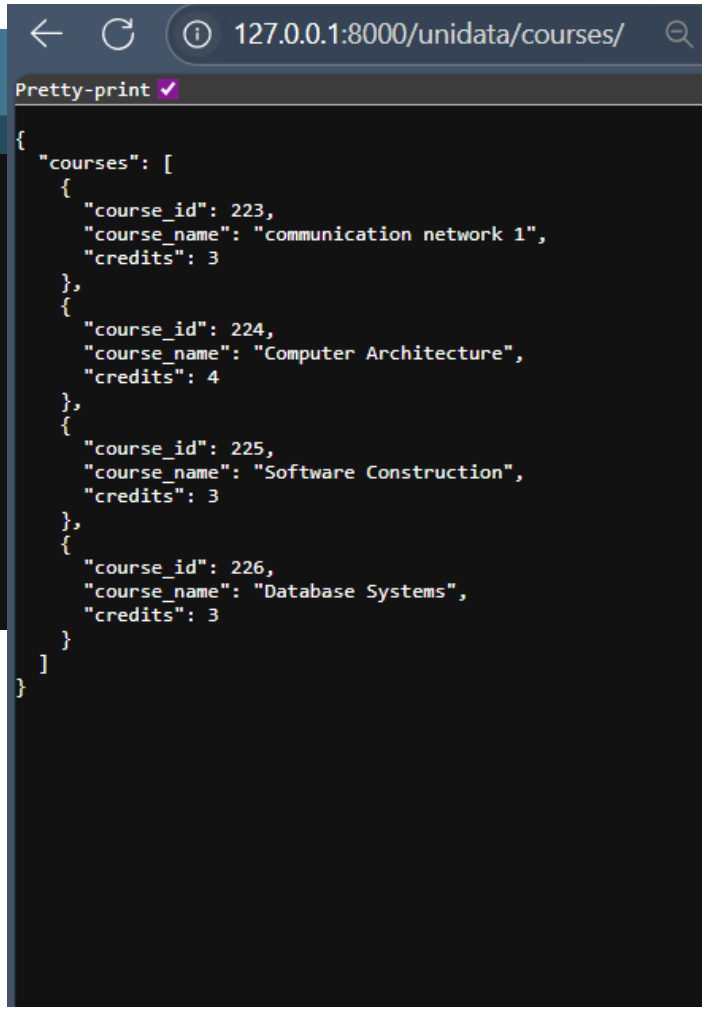












Adding the new student and the new course by the admin dashboard
